

# MANAGED OFFICE 365

A business-class email and productivity solution that leverages the benefits of the cloud with 24/7/365 support.

Businesses most likely use email and collaboration tools more than any other application in their technology stack. However, if you are strapped with limited functionality and integration with other email services, you could be wasting time managing daily tasks instead of building your business. Don't get stuck in the rhythm of non-productive integration, old system headaches, security threat disruptions and pesky routine tasks that put revenue generating projects on the back burner.

Managed Office 365 is an integrated solution, bringing together the best-in-class productivity of Office 365 with Magna5's 24/7/365 technical support from our U.S.-based Operations Center. Your team can become more productive and collaborative with the tools they need at their finger tips, from their desktop or mobile devices, while keeping data secure and compliant.

## The Magna5 value add: managed services.

### Get More Done

Get the Office applications you need to increase productivity with built-in AI tools, online file storage and sharing.

### Work Better Together

Collaborate, share and communicate with flexible tools that go where your team goes, desktop to mobile.

### Build Your Business

Improve the efficiency of your business operations to quickly grow your business with systems that grow with you.

### 24/7/365 Support

We are here 24/7 for technical support and management so you have more time to focus on your business.

### Migration Support

Magna5's engineers can handle the design and migration of your Office 365 environment in the cloud or a hybrid environment.

### Data Backup and Recovery

Safeguard your Office 365 data and environment with Magna5's 24/7/365 Backup and Disaster Recovery solution, secured in the cloud.

### Spam and Malware Filtering

Protect inbound and outbound messages from malicious threats like unwanted spam and malware with filtering from Proofpoint.

### Email Encryption

Secure communications with automatic email encryption, powered by Proofpoint, for sensitive messages and attachments.

# COMPARE OFFICE 365 PACKAGES

## As a Microsoft partner, we can help.

We excel at helping organizations rise above routine tasks so you can focus on growing your business. We can help you choose the right solution, tailor it to fit your unique needs and drive adoption among employees all while staying within your budget.
